

International Fungal Biology Conference: from Molecules to Communities

September 27-30, 2025 | Chania, Crete, Greece

Mediterranean Agronomic Institute of Chania, CIHEAM MAI.Chania

About the conference

The purpose of IFBC-2025 is to highlight current aspects of **fungal cell biology and morphology related to growth and development**, with a particular focus on the use of various methodologies to delve into **fundamental questions on fungal-host and fungal-environment interactions**.

The conference will be multidisciplinary, bringing together geneticists, biochemists, cell biologists, and structural biologists, working on different species, and has as its goal the global understanding of fungal interactions at the molecular and cellular levels.

Organizers & Contact Persons

George Diallinas, Principle Organizer

diallina@biol.uoa.gr

Department of Biology, National and Kapodistrian University of Athens & IMBB-FORTH, Crete, Greece

Meritxell Riquelme, Chair of the IFBC policy committee

riquelme@cicese.mx

Department of Microbiology
Scientific Research Center and Higher Education of Ensenada
Baja California, Mexico

Important dates

25 July 2025

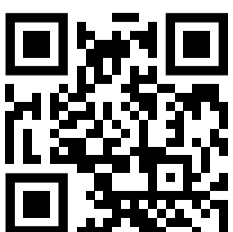

Registration and abstract
submission deadline

29 August 2025

Payment and
cancellation deadline

8 August 2025

Chosen participants notification

ifbc2025.maich.gr

Speakers

Claudio SCAZZOCHIO, FR

Anne SPANG, CH

Alexandra DALLAIRE, UK

Amy GLADFELTER, USA

Antonio DI PIETRO, ES

Axel BRAKHAGE, DE

Bing ZHAI, CN

Charissa DE BEKKER, NL

George DIALLINAS, GR

George HAMILOS, GR

Gerhard BRAUS, DE

Hailing JIN, USA

Joe HEITMAN, USA

Joseph STRAUSS, AT

Lilian FRITZ-LAYLIN, USA

Luisa LANFRANCO, IT

Martine BASSILANA, FR

Meritxell PEREZ RIQUELME, MX

Mike BROMLEY, UK

Milda PUCETAITE, SE

Miriam OSES-RUIZ, ES

Natalia REQUENA, DE

Nick TALBOT, UK

Per LJUGDAHL, SE

Reichard FISCHER, DE

Vasilis KOKKORIS, NL

Aaron VOGAN, SE

Xiaorong LIN, USA

Yen-Ping HSUEH, TW

Zuzsana HAMARI, HU
